

Premium Whole House Water Filter with UV Steriliser

1st Stage:

Automatic Back Washable Carbon Filter

Removes or reduces the following:

Dirt

99% Chlorine removal

Reduces Heavy Metal content Improves Taste and Odour

2nd Stage:

UV Water Steriliser:

Eliminates all Bacteria, Cyst and Viruses in the water supply

Advantages over other systems:

High flow rate

Low pressure drop

Low maintenance

Lower running cost

Bigger systems for higher flow rates and larger connection sizes are available

PURE WATER EFFORTLESSLY:

Our Premium Range of Whole House Water Filters are specifically designed to remove the Chlorine from all water flowing through the house. Drink from all taps, bath & shower in Chlorine free water, and your appliances will last longer. The UV steriliser further ensures that your water is 100% sterile and safe for use. These systems are for municipal water only!

Designed for effortless use, the filters are fully automated to preform backwash cycles. The UV Sterilizer is also equipped with a lamp Failure Warning system and Hour Counter, ensuring easy monitoring of its status.

WHF2 1-2 Bathroom House
WHF4 3-4 Bathroom House
WHF5+ 5+ Bathroom House
WHF7+ Duplex System
(for bigger connections & flow)

Running cost: (every 12 months)

WHF2 40Watt UV Lamp replacement

WHF4, 5+, 7+ 85Watt UV Lamp replacement

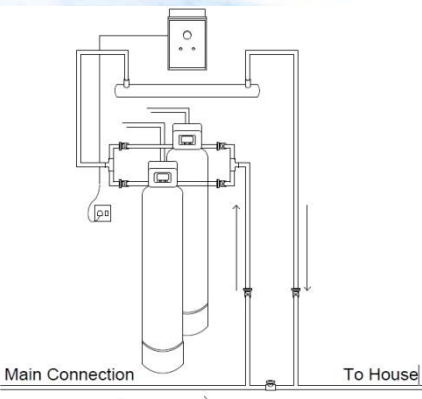

Every 2-3 years:

Replacement Carbon: p/25kg bag

Technical Specifications

Maximum pressure for all WHF units = 6Bar
